White-label wallet infrastructure for EU tourism companies

Built on Camino Network

October 2025

Executive Summary

Tourism Wallet Infrastructure provides white-label wallet solutions specifically designed for EU tourism companies operating on the Camino Network blockchain. Our platform enables rapid deployment of branded wallets in 2 weeks versus 12-18 months of internal development, targeting a growing ecosystem of tourism operators seeking blockchain integration.

Key Value Proposition:

- Deploy branded wallets in 2 weeks vs 18+ months internal development
- Purpose-built for tourism: NFT tickets, loyalty programs, QR validation
- Modular pricing from €29-€449/month with sustainable unit economics
- Target market: Growing Camino Network ecosystem and EU tourism operators

Go-to-Market Strategy

Partnership Approach

Camino Network Partnership Strategy:

- Alternative partnership options: ecosystem grants, gas sponsorship, auditing support
- Value exchange focus: branding, business development, technical auditing, distribution access
- Official infrastructure partner status within ecosystem
- Direct access to 200+ existing network companies
- Technical support and blockchain infrastructure priority

Potential Investment opportunity

- €200-350K for 15-20% equity (flexible structure)

Tourpreneur Distribution Channel:

- Access to 12,000+ tour operators across 180+ countries

- Exploring potential revenue share commission structure
- Potential co-marketing opportunities: webinars, events, content
- Initial discussions regarding corporate partnership program

Customer Acquisition Channels

1. Industry Events: Travel Un'chained, tourism blockchain conferences
2. Content Marketing: Technical blogs, case studies, whitepapers
3. Direct Sales: Account-based marketing to large operators
4. Partner Referrals: Camino and Tourpreneur network leverage
5. Digital Marketing: Targeted ads to tourism decision-makers

Competitive Positioning & Risk Analysis

Key Differentiators

Against Generic Crypto Wallets:

- Tourism-specific features: NFT ticketing, loyalty integration, QR validation
- Understanding of travel industry workflows and pain points
- Compliance with EU tourism regulations and GDPR

Against In-House Development:

- 90% faster time-to-market (2 weeks vs 18+ months)
- 75% cost reduction (subscription vs €200K+ development)
- Production-ready infrastructure with ongoing maintenance

Risk Mitigation

Market Risks:

- Blockchain adoption in tourism slower than projected
- Economic downturn affecting tourism industry spending
- Regulatory changes impacting crypto/blockchain usage

Mitigation Strategies:

- Focus on practical utility over speculative blockchain features
- Modular pricing allows customers to start small and scale
- Strong compliance framework built for EU regulations
- Diversified customer base across tourism verticals

Implementation Timeline & Next Steps

Immediate Actions (Next 60 Days)

1. Finalize Camino Network partnership negotiations
2. Complete MVP development and testing with pilot customers
3. Establish legal framework for EU operations and GDPR compliance
4. Launch freemium tier with first 25 beta customers
5. Begin Tourpreneur partnership discussions

Growth Phase (Months 4-12)

1. Scale customer acquisition through partner channels
2. Add core feature modules based on customer feedback
3. Expand integration offerings (PMS, payment gateways)
4. Build enterprise sales capability for larger customers
5. Achieve break-even and prepare for Series A funding

Conclusion

Tourism Wallet Infrastructure represents a compelling opportunity to capture the growing intersection of blockchain technology and the tourism industry. With realistic unit economics, fact-checked market analysis, and strong partnership leverage through the Camino Network ecosystem, the company is positioned to become a leading wallet infrastructure provider for tourism companies seeking blockchain integration.

Investment Recommendation: €200-350K for 15-20% equity provides access to a proven niche market with realistic potential for €2-5M annual revenue within 3-5 years, positioning for acquisition by major travel tech companies or sustainable profitable growth.
